

HOW TO REGISTER & ACCESS THE PATIENT PORTAL

How to Register

All patients with a unique valid email address should receive an email invitation from **"no-reply@eclinicalmail.com"** with the subject line: **Patient Portal Access Information from My Health Onsite (MHO).**

(Please check spam/junk folders)

To access your New Patient Portal, simply follow instructions in the email.

If you have not received the email invitation, please call **727-353-3000** to update your email address.

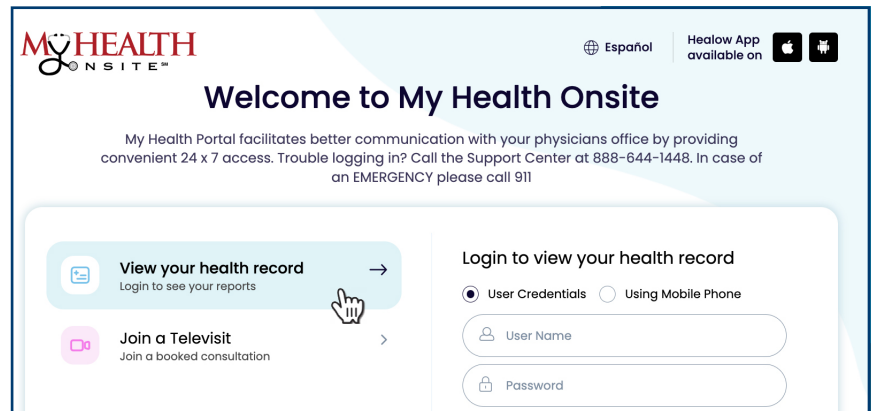

For patients younger than 18 or adults wishing to provide web portal access to another person, a Patient Portal Proxy Authorization Form must be completed to comply with regulatory requirements.

The proxy form can be obtained at the Employee Health & Wellness Center or downloaded from MHO's web site at the following URL: www.myhealthonsite.com/patient-forms. The form must be completed and turned into the Employee Health and Wellness Center staff to establish web portal access for proxy accounts.

How to Login (Once Registered)

STEP 1 Go to www.my-patientportal.com to take you to the **Patient Portal Login** page.

STEP 2 Click **"View your health record"**. Enter your Username & Password to log in to view health history, book or cancel and appointment, and more!

For assistance accessing the patient portal, please contact our **Patient Support Team at: 727-353-3000**

My Health Onsite abides by all federal HIPAA and confidentiality regulations.

PROACTIVE. ENGAGED. PERSONALIZED.
